APRIL 2014 Vol 7, Issue 3

Well, it seems like the warmer days are more in number than the really cold days, so maybe spring is really going to get here. I know we have had snow in April before, so I haven't hung up my winter coat yet, but I do have a pile of lighter weight jackets out to choose from. With the longer days, it makes me want to get out there and start walking and doing yard work again. I did go out and buy some tiny plants for my desk so I can pretend that it is spring even if it is still pretty brown outside.

CAMPS & CONFERENCE INSURANCE

Markel will write Day Camps, Resident Camps, and Travel Camps. The camps can be for profit or non-profit and can be written on a short term - 31 day or less - or annual basis. The Liability includes Sexual Abuse & Molestation and some Excess Camper Medical. Child Abduction Coverage and Camp Directors' Professional Liability can be added. Coverage

for activities such as boating, rock climbing, aquatics, and horseback riding is available. The program can also include Property, Facility Rental, Auto, and Accident Medical coverages. The app is on our website and would be needed along with Acord apps and any applicable supplemental apps. The risks are rated by the company with a pretty fast turn-around time.

DWELLINGS

We have heard that a couple more companies are no longer writing Dwellings. American Modern Home will write a DP-1 on Owner-Occupied, Rental, Seasonal or Vacant Dwellings. The homes can be any age and in any protection class. The value can be from \$10,000 up to \$300,000. Optional coverages offered include Personal Property, Liability, Other Structures, Residence Burglary, V & MM, Fair Rental Value, Identity Recovery, Occasional Rental, and various deductibles.

Inspections are run by the company, so we don't even need photos. The Dwelling app is on our website if you'd like me to quote it, or you can go into ModernLINK from our website and rate it yourself. If you don't have a user name and password, let me know, it's easy to get set up!

LAND GRADERS

One of the classes that we have been asked to write recently is Grading of Land. United will write these types of businesses. These businesses will move land to help conserve water, help with drainage or do site preparation. They can make terraces, dig ponds or fill in low-lying areas. We can write the General Liability, Vehicles, Property and the equipment. Submit Acord apps for a quote.

Thanks for reading!
