December 2012 - Vol 5, Issue 12

We hope you had a wonderful Thanksgiving. Did you get a chance to eat a lot of yummy food that is only made this time of the year? I know that we have some family favorites that are only made for the holidays because of the extra time that they take to make. That always makes them extra special and something to look forward to each year. We also enjoy the beautiful Christmas lights all around town, and with the warmer fall, lots of people had the opportunity to do a bit more decorating. We hope you all have the chance to enjoy this very special time of the year.

DRUG STORES

United Fire has a great program for Beauty and Barber shops. This class is eligible for the PremierPro program which includes a lot of extra or increased coverages such as Equipment Breakdown, Employee Dishonesty, and Water Back-up to name a few. Nail salons that are licensed by the State can also be written in this program. Professional Liability

is offered for the owner of the shop and can be extended to licensed employees. We can not pick up exposures such as exercise or tanning equipment, bodywraps or reflexology. We would need Acord Apps and the Beauty/Barber Shop supplemental app found on our website. Just click on the active link to the left.

LOG HOMES

You probably knew that your clients insured by American Modern Home can go on-line and make payments on their policies, but did you know that they can also sign up for EZPay, check to see when their last payment was received, find out when their next payment is due, print their ID cards or their policy, request an address or name change, or file or check the status of a claim? The 800 number for Customer Service and claims is also right there for them. They can just go to amig.com and set up access to their policy. For more information on getting set up, all they need to know is right there on their billing.

ANIMAL MORTALITY

Are you or someone you know going to get a new puppy for Christmas? Those furry bundle of joys can be very expensive! We can write animal mortality with Markel. It's a simple one page app and the animal can be written just for mortality alone, or including vehicular (getting hit by a vehicle), or including whelping (having puppies), or both. You can also write coverage on dogs that have been part of the family for a while with an age limit of 6 years. Coverage is bound only upon acceptance by the company, and the app can be found on our website.

PRODUCT OF THE MONTH

Beauty/Barber shops are the product of the month for December. For each Beauty or Barber shop policy that you write through the end of the month that is effective this month, you will receive an additional \$10.00.
