JULY 2013 Vol 6, Issue 7

Oh, my gosh it is hot out there! We thought that summer would never get here, and now it is most certainly here. It is nice that we are still getting rain, but we don't need all of the bad weather that comes with the storms. At least there is time to get to most of the baseball games, family picnics and the pool or lake. It sounds like it could be so much worse like it is in the Southwest where it is well over 100. We hope you have a great 4th of July! Don't forget, we're also closed on July 5th.

PLUMBERS

The TradePro program with United Fire is a great way to provide coverage for small contractors. It is a package policy that will provide up to \$1,000,000/2,000,000 on the Liability and you can add coverage for the installation materials that will become a part of the structure, scheduled tools and equipment, and miscellaneous tools or equipment. You can also broaden the policy and add Commercial Auto, Contractor's E & O, or Accounts Receivable. In some instances, we can also write the Work Comp. The TradePro app is a very simple app, and we will need it and the Artisans Supplement both of which can be found on our website. There is also a list of the acceptable classes for the TradePro program on the website, so check it out and see if it will work for your small contractor risks.

UNSUPPORTED OTHER STRUCTURES

We have had several inquiries recently for coverage on Other Structures. Sometimes, one of your insureds owns a building at another location that can't be added to their Homeowner's policy. This can be used for a shop for their personal use such as a person doing woodworking or tinkering on their own vehicles, or a building that they use to store their boat, RV or motorhome. Other types of buildings that would qualify for this program are pole barns, covered boat slips or even a gazebo. These are written in the Seasonal Dwelling program with American Modern Home. The minimum value is

\$5,000, and they are quoted and issued through ModernLINK.

VENDORS

I don't know about you, but I really love going to the farmers market on the weekends during the summer. I love the fresh produce, but I also love all of the booths that sell everything from jewelry to wooden items, pottery to baked items. You can insure these crafty people with RLI on their Home Business Insurance program. The minimum premium for most of the classes is \$159 for \$300,000 Business Liability and \$5,000 Business Personal Property on and off premises. Both of these limits can be increased for a small additional premium. Be sure to visit our website for the underwriting and application. If you'd like a firm quote, send us the completed app

and we will return a quote promptly. Hey, we can even write balloon artists and clowns!

PRODUCT OF THE MONTH TRADEPRO POLICIES

TradePro policies are the product of the month for July. For each small contractor placed in the TradePro Program that you write through the end of the month that is effective this month, you will receive an additional \$10.00.
